

Technology kit Aqualift F Compact Duo

Article information

Item no.: 28704-TK GTIN: 4026092107423 Price group: 20

Description

For combination with a KESSEL shell kit for creating a Duo lifting station for wastewater with sewage with an SPZ1000 wastewater pump.

The ready to plug in lifting station for wastewater with sewage is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an open pump tank. One-handed closures enable easy removal of the integrated components. The system for installation in the floor slab is pre-assembled for final installation on site. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system using a potential-free contact or alarm and collective fault messages that can be output through a GSM interface.

KESSEL technology kit consisting of:

- Pumps with macerator and multi-vane vortex impeller for maximum operating safety

- Comfort control unit 230 V

- Optical alarm probe
- Pneumatic level measurement

Variant Type of system: Pump control:	Single unit Control unit
Dimensions Net weight: Gross weight: Packaging dimension: Packaging dimension: Packaging dimension:	25 kg 25 kg length width height
