

Staufix FKA conversion kit DN 100-200, fr. 01/2012, 15 m cable

Article information

Item no.: 80104 GTIN: 4026092051344 Price group: 30

Description

The conversion kit is equipped with a motor-driven closure system, which is closed automatically in the event of backwater. A second closure system serves as an emergency closure to be closed by hand.

The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface.

The conversion kit is used to upgrade backwater chambers LW 1000 and backwater module chambers LW 1000 with the Staufix FKA backwater valve.

General characteristics Standard: Nominal size (DN): Note on nominal size: Type of wastewater: Backwater protection: Type de protection moteur: Cable length:	EN 13564 100-200 Hydraulics correspond to DN 150 for wastewater with and without sewage Type 3 IP 68 (3m/48h) 15 m
Dimensions Net weight: Gross weight: Packaging dimension: Packaging dimension: Packaging dimension:	7,83 kg 8,82 kg length width height
Control Control unit: Alarm sensor: Level measurement instrument: Type of level measurement: Protection class control unit:	Comfort optical probe optical probe optical IP 54

Length of mains cable for control unit: Potential-free contact: GSM interface: USB interface: Log book function: Multi-line display: Battery buffering:	1,4 m optional yes yes yes yes yes
, 3	yes
Self-diagnosis system (SDS):	yes
