

## Pumping station Aquapump XL Duo, Basic, AP 501,1400-1850 mm

## **Article information**

Item no.: 878711

GTIN: 4026092096727

Price group: 60

## **Advantages**

- height-adjustable upper section
- Preconfigured in the factory
- LW 600 chamber system suitable for underground installation

## **Description**

The pumping station for wastewater with and without sewage is suitable for underground installation and is equipped with a backflow preventer for the pressure pipe. The PE tank is resistant to domestic wastewater and includes a pedestrian class polymer cover plate. The pump with multi-vane impeller ensures maximum operating reliability. Quick-release closures enable the integrated components to be removed easily. The components are pre-assembled for final assembly on site. Including openings for inlet, ventilation and cable duct.

Variant

Type of system: duo pump Backflow preventer: integrated

General characteristics

Standard: EN 12050-2 as well as EN 12050-1 (without ATEX

requirements)

Type of wastewater: for wastewater with and without sewage

Installation situation: underground installation

System type: Duo
